

## CURRICULUM VITAE

### NERITAN MANI M.D FHM

#### **EDUCATION & TRAINING**

**M.B.A 2014** Isenberg School of Business/American College of  
Physician Executives  
University of Massachusetts Amherst, Massachusetts

**M.D. 1995** **Tirana University School of Medicine.**  
Tirana, Albania

**Lincoln Medical Center, Joan, and Sanford I. Weill Medical College  
Cornell University, New York NY,**  
Internal Medicine Residency New York, NY 07/2002-07/2005

#### **ACPE**

ACPE Managing Physician Performance Interact  
ACPE Three Faces of Quality Interact  
ACPE Health Law Interact  
ACPE Financial Decision Making  
ACPE Effective Physician Leadership

#### **WORK EXPERIENCE**

##### WHITE PLAINS HOSPITAL

Associate Medical Director January 2015 'til present

- Developed and established geographically based units on a medical leadership platform
- Overseeing Quality, PI, and Peer Review Committee
- Lead Physician for EPIC EMR Installation for Ambulatory Practices

Overseeing the design, testing, training, implementation and optimization of clinical content and provider workflows that support effective, evidence-based clinical care in the ambulatory settings

- Enhanced process of physician privileging and credentialing through physician profile database and managing OPPE and FFPE reports and restructuring of the Credentials Committee
- Provides strategic direction and planning for current and future healthcare technology and services offerings such as telemedicine, electronic scheduling
- Leads team for consulting services in performance improvement, patient safety and quality and satisfaction program and trained all staff in patient care excellence

White Plains Adult Hospitalist Department **White Plains**, New York  
**Hospitalist**

04/2013-12/2014

Westchester Medical Practice/HVHC, Cortland Manor, New York  
**Medical Director of the Hospitalist and Intensivist Program**

02/ 2011-04/2013

Leading the Hospitalist/ICU Service, a combined hospital medicine and critical care group with 12 hospitalists, three nurse practitioners and two critical care physicians with an average daily census of 90 patients while covering for 90% of inpatients.

Responsible for the management of the medical care, clinical care services, hospital throughput, utilization, staffing, scheduling, quality assurance.

Overseeing and monitoring individual physician performance, responsible for hospital core measures and patient satisfaction. Hospitalist Group performance was essential on patient outcome, Consumer Reports survey covering 2,591 hospitals nationwide placed HVHC into the top 3 hospitals in NY, reviewing hospitals' overall safety based on patient-outcome data including mortality, readmissions and hospital-acquired infections The Leapfrog Group gave Hudson Valley Hospital Center an "A" Hospital Managed to transition to a closed ICU and building of the first Intensivist Program at HVHC, resulting in an overall decrease LOS for ICU, reducing nosocomial infections, while reducing by 50% the ER to ICU bed time.

While growing inpatient physician services, hospitalist group retention rate was at 80% with very high job satisfaction surveys. Over the course of last 5 years, the hospitalist program yielded average savings at 10% in hospital costs and 20% reduction in the LOS.

Creating programs with an incentive to improve throughput, we were able to reduce median discharge time by 120 minutes and decreasing median time for admission orders at 60 minutes.

The transition of care was improved through patient navigator project and improved process for physician communication.

Patient satisfaction scores remained the focus of organizations goals; inpatient physician services helped on achieving many prestigious awards. HVHC received “Guardian of Excellence Award” by Press Ganey in 2013, which recognizes top-performing facilities that consistently achieve at or above the 95th percentile among 10,000 healthcare facilities.

Hudson Valley Hospital Center Cortland Manor, New York  
Chief Medical Information Officer

01/2010-01/2012

Successfully managing the design, architecture, and implementation of the clinician-physician order entry (CPOE). CPOE was a central driver of safety and efficiency improvements at HVHC reducing the ADE by 70% while being implemented on a “big bang” strategy over 12 months period.

Depart Process implementation was another major IT project focused on discharge and transition of care. Both projects were completed timely while achieving full compliance with Meaningful Use Stage One program requirements.

Chair of the Physician Steering Committee overseeing the project from conception and implementation to completion on time and budget.

Serving as Chief Medical Information Officer managed to incorporate more than 100 diseases specific order sets evidence-based guidelines into

electronic clinical decision support systems leading toward standardization and simplification of patient care.

First CMIO and Inpatient Physician Lead for a highly successful, enterprise-wide, "big bang" Cern EMR implementation which included inpatient, ambulatory, emergency.

- Visible and credible physician champion responsible for physician engagement and adoption, workflow redesign, computerized physician order entry (CPOE) and clinical documentation
- Served as chief physician advocate for 350 members medical staff while directing decisions that balanced the needs of providers, administration and the IT
- 
- Chaired the Physician Advisory Committee responsible for physician facing EMR build design and decisions
- Drafted all EMR policies and procedures
- Designed 300 physician order sets covering 30+ specialties and oversaw team of certified analysts
- Developed strategic plan for capture of Core Measures in nursing and physician workflows, documentation, order sets and best practice alerts
- Created all inpatient physician clinical documentation and oversaw all inpatient physician-based build
- >Consultant to physician support and training teams

### **Chairman of the Medical Informatics Committee**

01/2010-01/2012

Providing broad-based physician input into the design and implementation of the clinical information systems aligning them with regulatory requirements and institution goals.

Reviewing medical informatics trends, experiences, and approaches, while

developing technical and application implementation strategies and assisting in the development of strategic plans for clinical information systems.

Hudson Valley Hospital Center, Cortland Manor, New York

Hospital Medicine Associates

**Chief Hospitalist**

07/2006 -02/2011

One of the original founding hospitalists at Hudson Valley Hospital Center starting the program in the summer of 2005 subsequently appointed chief hospitalist in 2006. Providing guidance and assistance to hospital administration in regard to hospitalist services such as policies, personnel, marketing, quality assurance, monitoring, education and program growth. Coordinating physician services, monitoring quality and appropriateness of the medical care. Hospitalist group managed roughly 3432 cases a year achieving tremendous results on reducing mortality by 30% (observed vs expected) and reducing LOS by 18%. Building on quality, hospitalist group helped to place HVHC on top 10% of nationwide hospitals in the CMS core measures program.

Lincoln Medical Center, Joan and Sanford I. Weill Medical College

Cornell University, New York, NY

**Internal Medicine Residency**

07/2002-07/2005

New York University School of Medicine, New York

Bellevue Hospital, Cardiology Department

**Internship**

02/2003-03/2003

Medical management of cardiac catheterizations and EPS studies at Bellevue Hospital.

New York University School of Medicine, New York

Department of Urology

**Research Associate**

05/2001-07/2002

Conducted and managed a study of 1600 patients undergoing Radical Prostatectomy followed for the quality of life.

Updated and analyzed the NYU Prostate Cancer database.  
Co-authored several abstracts, poster presentations and articles.

Tirana University School of Medicine Tirana, Albania  
Department of General Surgery  
**General Surgery Residency**

01/1997 - 12/1998

Completed two years of residency in General Surgery.  
Assisted in the preoperative, intra-operative and postoperative care of a 150-bed surgical hospital, with 1200 major surgical interventions yearly.

Tirana University School of Medicine Tirana, Albania  
Department of Cardiology  
**Internship**

09/1995 - 12/1996

### **HOSPITAL COMMITTEE WORK**

Peer Review Committee WPH	2013- Present
Credentials , Med Executive WPH	2014- Present
Medical Board	2007-2013
Quality Council	2006-2013
ICU Committee	2008-2013
Health Information Committee	2006-2013
Stroke Committee	2010-2013
Pharmacy and Therapeutics	2007-2013
Peer Review Committee HVHC	2008-2011
Throughput Committee	2011-2013
Physician Leadership Academy/The Advisory Board	2009

### **AWARDS**

#### **2014 Beta Sigma Gama UMass**

2014 Albanian American Success Stories Nominee

2005 Strathmore's WHO's WHO in America

2008 Physician of the Quarter at the HVHC  
2004 ACP Certificate of Honor on Research

### **LICENSURE**

New York Internal Medicine MD 2005

### **CERTIFICATIONS**

Doctor in Medicine Tirana University 1995  
Board Certified Internal Medicine 2005  
Internal Medicine Residency 2005  
ECFMG 2002  
Internal Medicine, Albania 1996  
Fellow of Society of Hospital Medicine 2010

### **PROFFESIONAL AFFILIATIONS**

American Medical Association 2002-Present  
Society of Hospital Medicine 2005-Present  
American College of Physician Associate Member 2005- Present  
American Urology Association Member 2002-Present  
Medical Society State of New York 2005-Present  
Albamerican Trauma and Surgery association. 1997  
American College Physician Executive 2010-Present

### **PUBLICATIONS**

“Evaluation of QT Dispersion in Patients Presenting with Cardiac Dyspnea to the Emergency Department (ED)”  
Mani N, AbdulKarim J, Haj Asaad A, Kanna B. Lincoln Hospital NY, Weill Medical College of Cornell University  
Research study submitted at the American College of Physician 2005 Annual Session at San Francisco. Presented as poster at the ACP chapter of New York Saratoga Springs November 14, 2004.

“Retroperitoneal Fibrosis (RFP) and Still’s Disease a Coincidence or an Unusual Presentation of an Immunologic Disorder.”

Mani N, Soni A, Ramaswamy DH, Lincoln Hospital NY, Weill Cornell Medical School of Cornell University

Journal of Clinical Rheumatology January 2005-.

“An atypical Case of Guillen Barre Syndrome (GBS) With Combined Demyelinating and Axonal Neuropathy “

N.Mani, R.Bhat, J.Mcannon, N.Shabarek. Lincoln Hospital NY ,Weill Cornell Medical School of Cornell University

Case report submitted at the American College of Physician 2005 Annual Session at San Francisco.

Won Honorable Mention at the ACP Annual Meeting NY Chapter Upstate Saratoga Springs November 2004

“An Unusual Case of Myocardial Bridging with Stress Related Syncope”

N.Mani MD, B.Kanna MD, R.Brown MD, Lincoln Medical Health Center,

Case report ,won Honorable Mention at the American College of Physician 2004 Annual Session New York Chapter April 22-24, 2004.page 143

“A Case of Transient Heart Failure Secondary to Peripartum Cardiomyopathy”

N.Mani MD, B. Kanna MD, Lincoln Medical Health Center, Weill Medical College

Case report won Honorable Mention at the American College of Physician 2004 Annual Session New York Chapter April 22-24, 2004.page 125

”The Impact of Endothelial Disease Risk Factors (EDRF) In the Recovery Of Erectile Function in the Patients Undergoing Bilateral Nerve Sparing Radical Prostatectomy.”

A McCullough MD, N Mani MD, H Lepor MD, Department of Urology, New York University School of Medicine, New York

10th World Congress of the International Society for Sexual and Impotence September 22-26, 2002 Montreal, Quebec Canada

“Is There A Need For Re-Dosing In Men With Pure Venous Occlusive Dysfunction (VOD) On Penile Duplex Doppler?”

A McCullough MD, N. Mani MD, Department of Urology New York University School of Medicine,

10th World Congress of the International Society for Sexual and Impotence

September 22-26, 2002 Montreal, Quebec Canada

“A comparison of long term penile damage after prostate radiation therapy (RT) Vs retro pubic radical prostatectomy (RRP) with post treatment ED: Is there difference?

N Mani MD, A McCullough MD Department of Urology New York University School of Medicine,  
27th Annual Meeting American Society of Andrology  
April 24 - 27, 2002, Seattle, WA  
AUA Annual Meeting Orlando Florida May 25-30, 2002

"An algorithm to increase the performance of nerve sparing radical retro pubic prostatectomy while decreasing the rate of positive surgical margins"  
O Shah, N Mani, J Melamed, H Lepor Department of Urology New York University School of Medicine, New York  
NYU Post-Graduate Medical School  
Surgical, Pharmacological and Technological Advances in Adult & Pediatric Urology  
December 6-8, 2001 Page 342-344  
AUA Annual Meeting Orlando Florida May 25-30, 2002

"What can you do about Breast Cancer?" N. Mani.  
"Your Health Magazine" 10/2000 Vol.71 Page 7

Isenberg's MBA in partnership with the American College of Physician Executives (ACPE) provides a curriculum based on core business knowledge focused in Medical Management , building the business knowledge necessary to lead and manage in today's evolving healthcare market.

With a focus on the efficiency , published a paper on geographic patient placement , multidisciplinary rounds , team building and hospitalist ownership.
